

Double effects of silver and copper for long-lasting clean use  
**Anti-Bacterial Toilet Brush w/ Case**

introduction

This brush drains quickly and has a double antibacterial effect for clean and safe use.

**Double antibacterial treatments with silver and copper**

The double antibacterial effects of silver and copper control of bacteria on the sponges.

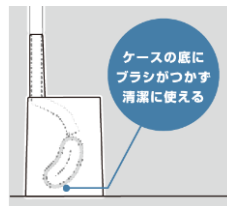

**Brush that drains quickly and stays clean**

- ① Nylon non-woven fabric that removes dirt without scratching
- ② Antibacterial sponge that drains water well

**Curved handle for easy washing and easy to wash the underside of the edge**

Curved bristles firmly penetrate into the hard-to-wash underside of the edge to remove dirt.

**All brush handles and cases are treated with an antibacterial coating**

The brush handle and case also contain a silver-based antimicrobial agent.

The bottom of the case is designed to keep the brush clean.

**Calm light gray color**

The subdued light gray color makes it easy to fit in with your interior design.
