

Magnets on the wall for easy storage

## Bath Brush trepica Magnet Handle

### introduction

This brush can be stored floating with magnets for quick drying and clean use.

### Can be stored floating off the floor and wall for quick drying and clean use

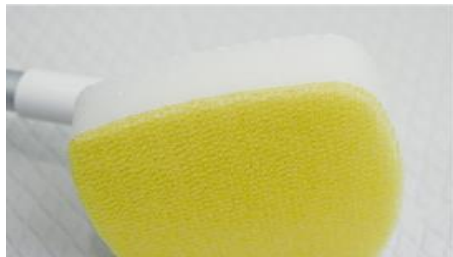

Since it can be attached to the bathroom wall with magnets, it can be stored floating off the floor and wall and let air through, allowing the sponge to dry quickly and be used cleanly.

### Easy to install and remove and easy to store

Magnets can be easily installed and removed without damaging bathroom walls.

※Depends on the wall, it can't be used.

### Ultra-fine brush clean off dirt in fine grooves

The ultra-fine brush trepica reaches even the dirt in the smallest grooves of bathrooms and bathtubs and cleans them off.

### product material

This bath brush is made of trepica (0.045mm ultra-fine fibers) material that can be quickly attached to the bathroom wall with magnets for storage.

#### Grip with magnet

A magnet on the edge of the handle allows it to be quickly and easily attached to the bathroom wall for storage when not in use.

#### Lightweight aluminum handle

The handle is made of aluminum and is lightweight, making it easy to use when cleaning, and it floats securely for storage when attached to a wall.

#### Ultra-fine brush trepica

Ultra-fine fibers finer than a hair penetrate into invisible grooves to remove dirt without scratching the object.
