

Parasol hanger for multiple uses indoors and outdoors.

Parasol Hanger 20 Arms

introduction

Parasol hangers for indoor or outdoor drying at the top of the door or on the nageire.

indoor
drying

Indoor drying in various locations

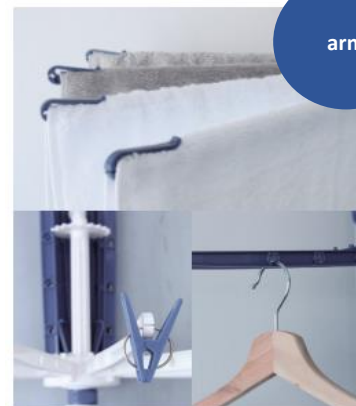

The hooks can be angled to hang above the door or on the lintel to dry 10 towels.

drying
outside

Suitable for low rods in condominiums

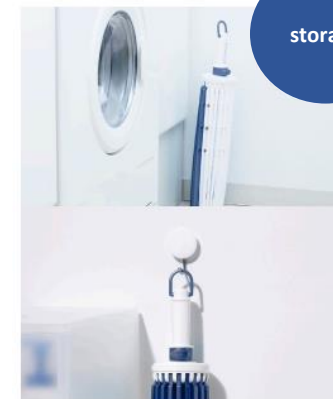

The height of the arm can be changed so that it can be used on low poles, such as in flats. (When drying outside, it can sound dry up to 20 towels.)

arm

Convenient arm

The arm is 32 cm (16 in.) wide, which is the perfect width for a face towel; it can also be used to hang a shirt hanger, and a pinch can be attached to the end.

storage

Compact storage

The arms can be folded for compact storage without taking up too much space. They can also be stored using hooks.
