

Pinch to dry small items
Telescopic Laundry Hanger 20 Pinches

introduction

You can dry small items by attaching the optional pinches

Clip-on pinch allows mounting & sliding to any desired location

The special mounting pinch can adjust the depth of mounting to fit two different pipe thicknesses, thick and thin.

The pinch allows you to dry a variety of items

The included pinch allows you to dry small items such as socks and masks that could not be dried on conventional telescopic laundry hanger.

Small items can be dried with towels to hide underwear, etc

Underwear and other items can be hidden and dried by placing a bath towel or face towel between the front and back of the small items.

introduction

How to use the clip-on pinch

How to use with two types of pipes (thick and thin)

When mounting on a thick pipe, it can be snapped onto the pipe to secure it in place. Also, when installed deeply, the pinch will not come off even in strong winds because it is firmly fixed in place.

Pinch can be mounted anywhere you like

Pinches can be attached to any location on the telescopic laundry rack and can be freely positioned so that you can freely dry everything from small items to face towels and bath towels.
