

Space-saving and can dry a lot of bath towels

Telescopic Laundry Hanger

You can dry your bath towels
anywhere, outdoors or indoors!

introduction

Can be used according to the thickness you want to hang it

It can be adjusted by sliding it back and forth to match the thickness of the place where you want to hang it, up to 19.5cm.

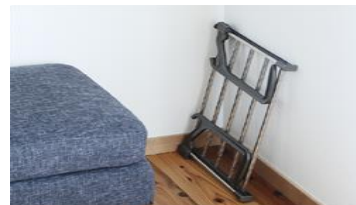

Non-clothing items can also be dried flat

Shoes, pillows, and other items of clothing can also be dried flat.

The bar can be extended to dry a lot of stuff

The bar can be extended and retracted from 41cm to 75cm, allowing for drying many loads of laundry, such as 10 face towels or 5 bath towels.

Folds compactly for storage

The telescopic design allows it to be folded compactly for space-saving storage.

Can be dried in various outdoor and indoor locations
It can be dried in various places such as balconies, walls, clotheslines, drawers of chests of drawers, etc.

Optional pinch can be attached to dry small items

By adding optional pinch, you can also hang small items to dry.
