What is trepica?

0.045mm

The 0.045mm ultra-fine fiber brush penetrates fine grooves and removes dirt

Feature

The conventional sponge and brush can't reach deep fine grooves and scratches, and these leave dirt to stay. However, since the trepica brush is finer than a hair, it can reach fine grooves and scratches, and remove dirt.

trepica's merit

It reaches fine grooves and scratches that are invisible and scrape dirt because of the 0.045mm ultra-fine fiber brush.
