

## Can be used for a variety of needs Laundry Hanger for indoor / outdoor drying

### introduction

### Stress-free square hanger series with various functions

#### Two types of pin can be used for different types of laundry

Two types of pin can be used: soft pin with rounded tips for gently drying clothes without leaving marks, and normal pin that are easy to grasp and use. (LK402 uses navy blue soft pins)

#### Smooth opening and closing without pin tangling

When folded, the pin are aligned in the same direction, preventing tangling when opening and closing, for stress-free use.

#### Pin placement for easy hidden drying

The arrangement of normal pin on the outside and soft pin on the inside makes it easy to dry underwear on the inside and towels on the outside for concealed drying. (LK422, LK162, LK167)

#### Convenient features for drying laundry indoors

The length of the elastic belt can be adjusted to keep the laundry horizontal. You can also pull out the spacers to prevent them from hitting the wall. (LK162, LK167)
